- 1.
2. Rushing, splashing, seething, even roaring in its effort to make itself heard and so cause the world to pause and realize that here is a great power.
3. This cry has gone up for centuries, day after day, from one stream after another.
4. Perhaps their magnificent beauty hides away all thoughts of usefulness.
5. "We can do all that coal can," shouts one of the streams.
6. "Fuel is capital, the more you use, the poorer your country becomes ---- I am revenue and run on whether you use me or not," cries another.
7. "138,666,000 tons of coal were used by Railroads alone in 1919," exclaims another.
8. And thus they spoke one by one until some one heard.
9. Soon others understood and more dams were built. These produce over 1,000 H. P.
10. 6,000 H. P. operating cotton mills. Columbus, Ga.
11. 10,000 H. P. up to 43,000 H. P.
12. 100,000 H. P.
13. And so on, until this magnificent example was built. It has a 72-ft head and develops 92,000 H. P.
14. It supplies cities and factories within a radius of 75 miles with light and power.
15. It would require the use of 4000 railroad cars for hauling coal to produce equivalent power, -----
16. -----while now it requires only 12 men of 2 shifts to run this wonderful plant.
Lock 12 on the Couse River, Ala.
17. This city uses water as fuel and now operates everything from Water Power.
Anniston, Ala.
18. This work is only begun. Remember -- the mill will never grind with the water that has passed.

(The end)
